TALK IT THROUGH

Your 30-minute outcome call

A short conversation about one business bottleneck, the current setup, and the most useful next step.

Before we talk

- The issue you want to fix, in your own words.
- What you use today for calls, email, website, Google, or follow-up.
- One example of where customers or leads get stuck.
- Who will help make the decision.

What we will cover

- What is happening now and what a useful result looks like.
- Which of the three bundles fits, if any.
- What access or inputs the work may require.
- Costs and limits to confirm before any work starts.

The next step

If there is a fit, we will confirm the scope, the one-time and monthly fees, any third-party costs, and the next decision in writing. If your need is outside a bundle, it needs a separate quote.

Request an outcome call

Email info@nerdyhands.com with your biggest bottleneck, or use the form on nerdyhands.com. A request is not a calendar booking; we will follow up.
