AFTER YOU SAY YES

What happens after purchase

A clear first step matters more than a long list of promises. Here is what we will agree and check.

First, confirm the work

We confirm your chosen scope, a delivery contact, needed access, and the first working milestone. Share credentials through an appropriate secure method, not in a plain email.

Then, check the first result

01 **Business Ready**

Confirm the agreed phone, inbox, and website setup works.

02 **Get Found**

Review the updated Google Business Profile and local details together.

03 **Follow-Up Engine**

Run an authorized test of the review, text, and lead-reminder workflows.

Know what follows

We show what is working, what remains open, who to contact, and what the monthly service covers. Search rankings and sales are not guaranteed; your agreed first milestone is the proof to check.
